

CAD Lineage

January 7, 2025

Aim

To see our unique lineage contributions

In a way that raises our Will for
continued development as Wisdom
Keepers of this Work

So that the school's evolution and its
role in building human consciousness
continues beyond our lifetimes.

Exercise – What Now?

- What questions have you been pondering related to CAD, the lineage community, and/or your own development and what happens now that Carol is no longer with us?
- Write down one or two that are most energized in you at the moment.

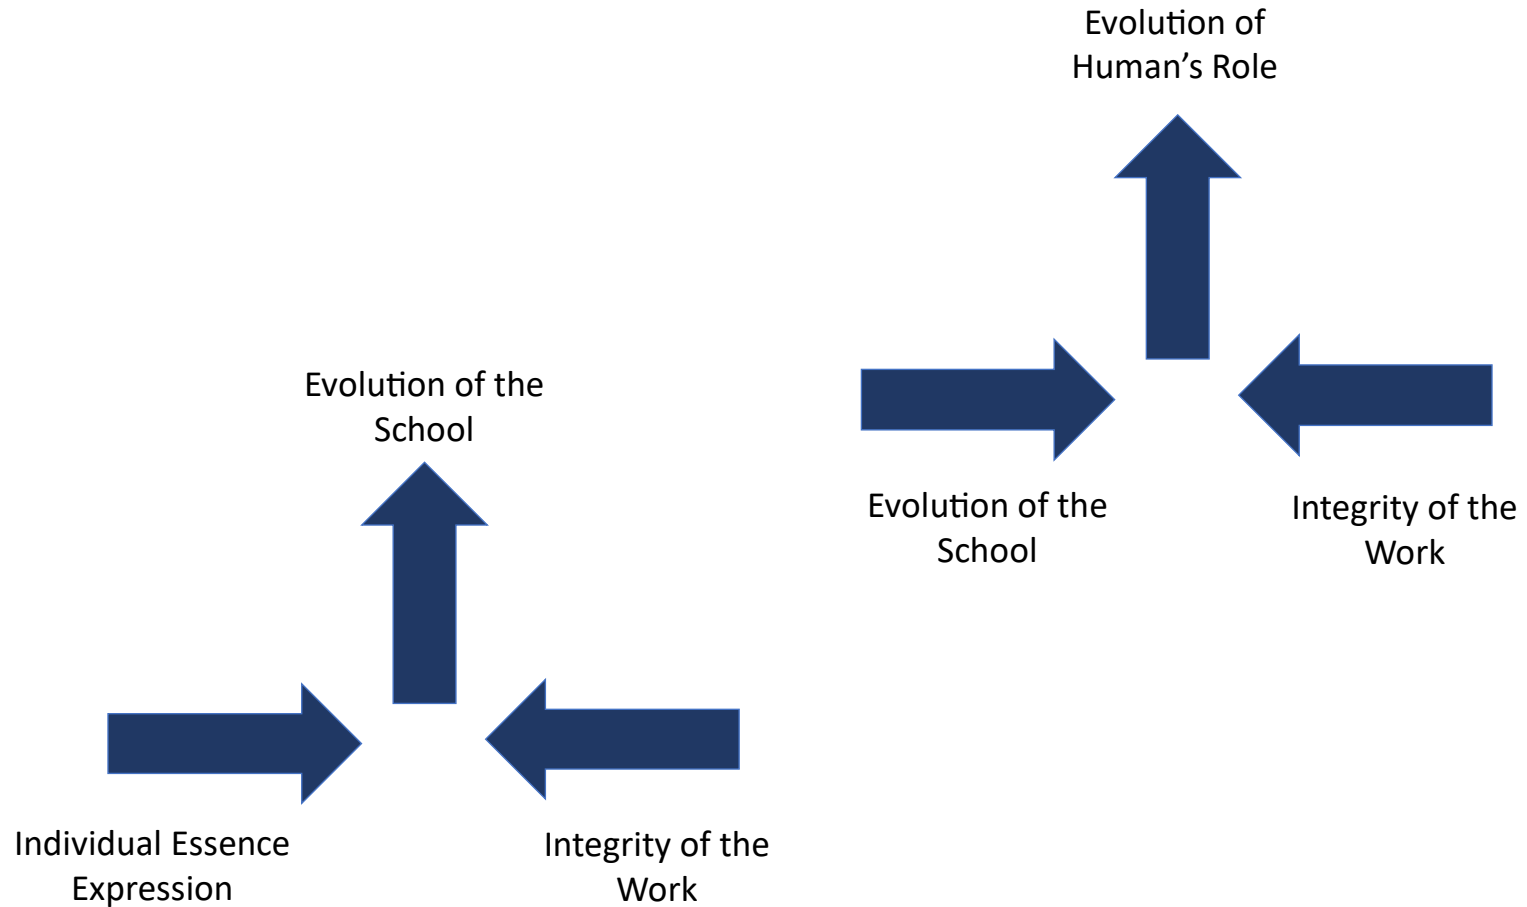

Exercise – What Now?

Assess the level of thinking from which these questions arise.

- Are they sourced from your personality or from your essence?
- Are they informed by energy drains or by a systems orientation from the regenerative paradigm? What level of energy do they represent?
- If these questions are not currently articulated at the level to which you aspire, upgrade them until you feel your Being state shift and your Will rise.

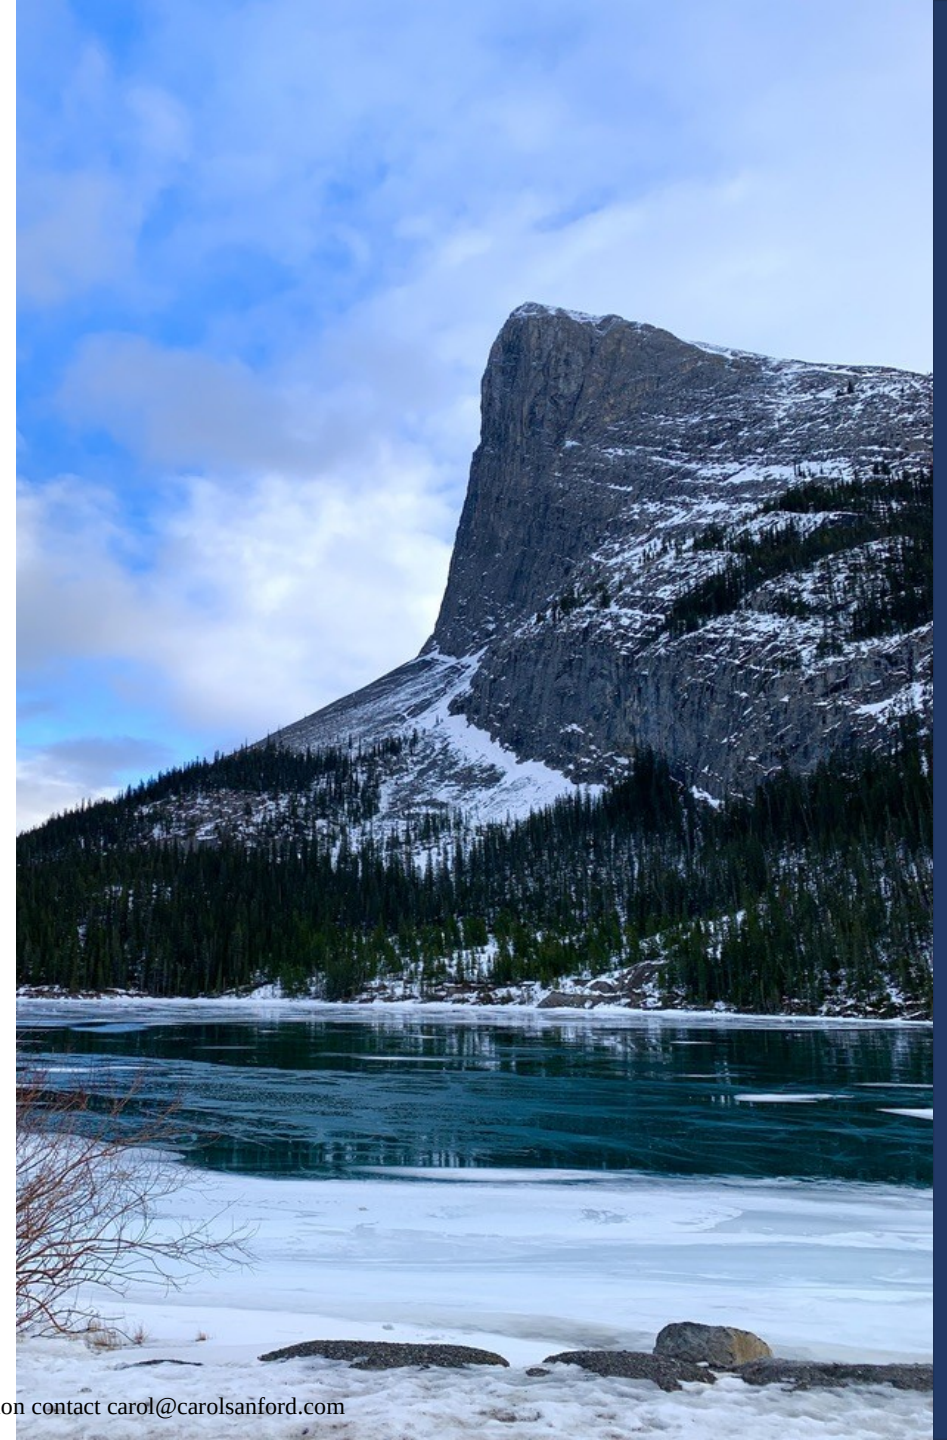

Octaves of Evolution

Integrity of the Work

- **Developmental Epistemology** (*Self-developing/self-determining versus knowledge transfer via experts*)
- **Living Systems Cosmology** (*Human's contribution to living systems evolution through developing consciousness versus seeking outcomes and engaging in processes based in existence*)
- **Developmental Ontology** (*Human's Being & Will capable of continual evolution & regeneration verses humans as static & fixed*)
- **Developmental Technology** (*Living systems framework thinking & reflection versus mental models and mechanical, unexamined thinking*)

Exercise

Describe your best idea so far about an offering you could create to advance the evolution of the School.

- How is this offering an expression of your essence? Where do you see your personality/ego influencing your thinking about this?
- Where will you need to be vigilant in order to ensure your offering maintains the integrity of the Work?
- In what ways could this offering evolve the School?
- What functional actions do you need to take now? What self-observing aim do you need to commit to? What structures will you develop to regenerate your Will on an on-going basis?

Offering

To provide initial organization to Lineage
Community engagement in 2025.
